The Face of Resurrection - Turning Toward Praise and Thanksgiving

Easter is here, in the mid-month. The Lord is risen indeed!!! We have been waiting not only for His coming since Advent, but for ours as well. Because, with all thanks to God, the Resurrection of Jesus Christ is all about us...you and me! All as intended by God.

Being the people of the Resurrection means that we have already given our lives completely to God through Jesus. To be sincere disciples of Jesus in following his way to come into relationship with God the Father, we have to do it the way he did it: taking the greatest risk that any person could take through the heartfelt, sincere, outpouring of control of one's life. Saying literally, "God, here is my life. Here I am. Take control of me, and let me become who you would have me be." Have we done that? Can we do that?

Our world churns on, day after day, in strife, and agony, and suffering. We live in a culture, a world of wanton violence, suspense, drama. NOT a culture or a world of peace, of love, of compassion, of mutual respect. In being led by him, Jesus wants us to do it differently. To live life another way. Away from all of the despair, the violence, the disruption, the drama that our lives often drop into.

ERICK KROLL'S FROM THE ORGAN BENCH

If anyone reading this hasn't heard by now, I found out this past Sunday afternoon through testing that I had contracted Covid. It came on very suddenly. At first, I thought it was bronchitis, but I decided to be tested for Covid in case I was wrong. Fortunately, I am already feeling a lot better. It has reminded me of how much I was suffering from allergies while living in South Carolina when I was often a whole lot sicker believe it or not.

Continuing on with the next rank of pipes in the Swell (or Positiv) division of our organ we come to the 2' Fifteenth which is the second if not the loudest pipes in our organ and are open metal in construction. 2', if you remember, is the soprano voice of the organ. The term fifteenth comes from its pitch being fifteen natural (or white) keys up from whatever other natural key is being played. This numbering system does not hold true when applied to the sharps, but some organ builders still use the term. Another term I have seen for these kind of organ pipes - and more accurate - is Super Octave with octave meaning one octave above piano pitch and super meaning an octave above that.

Cheers,
Erick

FR. HEIDT’S MESSAGE CONTINUED...

In this Easter season, we are reminded of new life, of new possibilities. It is the old story being retold, and relived over and over again. Jesus points us to a different way of living life, all in a very calm and loving and reassuring way...indeed, following “the Way”.

In being reborn, we are called into making deeper commitments. A renewed, heartfelt and primary world view...with God’s help...to live our lives in passionate thanksgiving to God for all that we are blessed with...particularly now during Easter. With a joyful heart, move your life into one of stewardship of all of God’s gifts...giving Praise and Thanksgiving with all that we have, and all that we are.

In the Love of Christ, Fr. Jim

and guide with your pure and peaceable wisdom

that in tranquility your kingdom may go forward,
till the earth is filled with the knowledge of your love;
