ERICK KROLL'S FROM THE ORGAN BENCH

I have finally gotten over the Covid and bronchitis I had the last two and a half months. Praise be to God!

Continuing on with the stops on our organ we come to a stop called Tierce. This word has become archaic nowadays, but it basically means a third. According to Webster's dictionary, tierce can mean three of a kind in poker; the third canonical hour (9:00 AM); an old liquid measure equal to 1/3 pipe (42 gallons); in fencing, the third position from which a lunge or parry can be made.

In organ nomenclature, a Tierce - designated as $1\ 3/5'$ - sounds two octaves and a third above the written note or seventeen natural (white) keys above middle C. On some organs, I have seen the word Seventeenth used in place of Tierce. This organ stop is always used in combination with foundation stops (8', and/or 4') to create a solo voice with lots of color sounding like a reed. The Tierce also rounds out a solo combination called a Cornet (pronounced cor-nay) that contains 8', 4', $2\ 2/3'$, $2'\ 1\ 3/5'$ pitches that is frequently used in pieces called Cornet Voluntaries.

Cheers,
Erick
